

I am a Wisconsin resident who strongly supports our state's rigorous "do not call" list. This list was duly enacted several years ago by our elected officials. It is so popular that residents have voluntarily listed over 80% of the state's phones on it. I resent efforts by special interest groups to weaken it or their own selfish reasons, thus allowing unwanted and uninvited agents to disturb me and thousands of others at home. Please reject this effort to undermine our state laws.
